LUNARIS

Comprehensive, Effortless IT Protection for Your Business

Protect. Secure. Empower.

As the digital landscape evolves, businesses of all sizes face growing cybersecurity threats and IT management challenges. Lunaris is an all-in-one IT security and management solution designed to safeguard your business while keeping operations running smoothly.

Threat Prevention Built for IT Professionals

Lunaris delivers industry-leading IT services in a fully managed solution. With robust protection, proactive monitoring, and seamless data recovery, we handle the tech so you can focus on your business.

What's Included

Remote Monitoring & Management (RMM)
24/7 visibility and control over your IT infrastructure to detect and resolve issues before they impact business operations.

Endpoint Detection & Response (EDR)
Proactive threat detection and response to prevent cyberattacks before they cause damage.

Antivirus
Powerful protection against ransomware, viruses, malware, and cyber threats to keep your systems safe.

Third-Party Patching
Automatically updates critical third-party applications to close security gaps and improve software reliability.

Endpoint Backup
Ensure business continuity with automated backups & rapid recovery from cyber threats, accidental deletions, or hardware failures.

Phish Filtering
Protects Microsoft 365 and Google Workspace from phishing emails, preventing malicious links and scams from reaching inboxes.

LUNARIS

Save Time with Add-On Services

Client Security Awareness Training
Engaging video-based training with testing to educate employees on recognizing and avoiding phishing attempts.

Dark Web Scanner
Monitors the dark web for your business's sensitive information, alerting you if your data is compromised.

Managed SOC (Security Operations Center)
24x7x365 monitoring and response, ensuring around-the-clock protection and incident management by security experts.

Why Choose Lunaris?

Complete IT Security
Comprehensive protection covering all key IT security and device management areas.

Cost-Effective
One affordable package that scales with your business needs.

Simplified Management
A single platform for monitoring, patching, and backup—reducing complexity and saving time.

Trusted Solutions
Proven protection backed by enterprise-grade security technology.

Ready to Future-Proof Your IT Infrastructure?

Lunaris' fully managed services handle security and reliability, so you can focus on running your business. Contact us today to learn more.
